

FREE FBI BASICS OF FINGERPRINTING CLASS

JUNE 27TH - 29TH, 2017

Scientific Basics of Fingerprints – Classifying, Recording, and Comparing/Scientific Basics of Palm Prints – Recording 3-day

This curriculum is for individuals interested in obtaining a basic understanding of fingerprints. Participants will learn the fingerprint pattern types, classification using the Henry (if applicable to the agency), National Crime Information Center (NCIC) systems, and AFIS Pattern Classification (APAT) code. The course, though demonstrating procedures to effect an identification or exclusion, will also cover recommended techniques to record/collect legible fingerprints and palm prints. Course curriculum consist of: Presentations, Facilitated Discussions and Practical Exercises

Email Lt. Wayne Barlow at wayne.barlow@prattvilleal.gov to register.
